23<sup>rd</sup> April 2016

Dear Craig

**Re: DFES Memorandum Of Understanding**

This letter is to confirm that the members of the Point Samson Volunteer Bush Fire Brigade have provided in principle support to the proposed transfer of management of fire in the City of Karratha from the City of Karratha to DFES.

It is our understanding that this transfer of management will mean that how the PSVBFB respond to future fire incidents will not change from how we currently respond but that we will be taking our direction on response from DFES instead of the City of Karratha.

We also understand that this MOU will provide for more training to be made available to our officers (DFES will advise when training is scheduled).

Please let us know if you require any further information.

Yours sincerely

**Michelle Schut  
Secretary  
On behalf of the Captain and Members of the Point Samson Volunteer Bush Fire Brigade**
