3 March 2014

Dear Chris,

The PSCA wishes to inform council that the funds previously approved by Council for use on an interactive water park in Point Samson (\$250,000), will now be applied toward the construction of a replica jetty/Look out located on the site of the original jetty in Point Samson.

This project is well established and supported by the community. A \$30,000 donation from Van Oord in 2012 allowed us to begin the project by relocating the jetty carts, erecting signage and constructing a table and chair set. Rio Tinto has agreed to provide engineering drawings for the construction and these will be received by us in the next few weeks.

After several months of consultation with Rio Tinto, a design was chosen which will require little to no maintenance and should be able to be enjoyed by the community for many years to come.

We thank you in advance for your flexibility and cooperation regarding the reassignment of these funds.

We look forward to your response.

Yours faithfully

John Graham
President
