

ATTACHMENT 1

The list below is an extract from the Local Government Heritage List for Shire of Roebourne 2013. These are the sites from the Management Category A – exceptional significant and Category B – Considerable significance. The Planning Scheme offers some protection to each of these categories.

The total number of entries or place records has risen from 56 in 1996 to 73 in the 2013 Inventory.

The increase in the number of listings is due to several factors which include the evolution of assessing techniques since 1996, some naming approaches eg Burrup sites now included as the Dampier Archipelago, use of precincts such as Cossack and Roebourne.

Some of the interesting additions in this review are the Victoria Hotel, Roebourne, Yaburara Heritage Trail and the Solvig ship wreck at Point Samson.
